

Consulting

TAKE THE FIRST STEP...

Perhaps you are not ready for training but would like to get an idea as to how to assess your vulnerabilities from the perspective of SD. The first step would be to receive a consultation so that you understand the relationship between hostile surveillance and your vulnerabilities.

SDConsultants provides consultations in the following areas:

- Surveillance Detection as it applies to Risk/Threat Assessments
- Surveillance Detection for Executive Protection
- Surveillance Detection for Facilities and High Value Targets
- Surveillance Detection for Individuals or Entities under Credible Threat
